(B) Any person, firm, or corporation who violates any provision of §§ 91.06, 91.07, or 91.10, or any amendment thereof, including the owner, possessor, or occupier of any premises within the City who allows or suffers the violation upon the premises, is “responsible” for having committed a municipal civil infraction, as provided for in Public Acts 12, 17 and 19 of 1994 being MCL 600.8701 et seq., 117.41, 117.29 and 89.2; the violation is punishable by a civil fine of \$50 for a first violation, \$100 for a second violation, and \$150 for a third violation. The City Council may hereafter modify, change, increase, or decrease the civil fines set forth above, by the adoption of a resolution to that effect as provided by law and this division (B). Each day that a violation continues constitutes a separate and independent

violation and is subject to the penalties provided for herein for each such violation. A violation of §§ 91.06, 91.07, or 91.10 is hereby declared to be a public nuisance per se. The municipal civil infraction notice or citation may be served personally or as otherwise provided by law and if the violation involves the use, condition, or occupancy of land or of a structure, the notice or citation may be posted upon the premises or attached to the structure at issue, with a copy sent by first-class mail to the owner at his or her last known address, and/or the owner and address as disclosed by the City tax rolls. Responsibility for determining if a tree is undesirable rests with the Streets and Sidewalk Committee with the final approval for replacement by the City Council.

(A) The City Manager or their designee, shall recommend to the Streets and Sidewalk Committee the removal and replacement of an undesirable tree if, in their professional judgment or based on tree health, they determine it is not performing adequately as a street tree.

(C) If approved by the Committee, trees for replacement will be purchased and planted by the City in accordance with approved planting practices.

(D) Removal work will be governed by the availability of City's contractor to do the work. Timing of removal must consider the impact of the area. Block renovation replacements in a small area may be scheduled over a period of several years. The City reserves the right to do tree trimming and removal on an annual basis.

(E) The City Manager or their designee will determine the number of replacement trees to be planted. The number removed and the number planted may not necessarily be the same.

(F) The property owner may request placement from those trees on the approved tree planting list. However, final approval rests with the City Manager or their designee and the Streets and Sidewalk Committee, as well as tree availability.

(G) Trees that are questionable as to their removal will be looked at by the County or MSU Extension Service to help determine if the tree should be removed.
