

What is ID Theft?

Identify theft is the wrongful use of YOUR personal information - such as your name, social security number, or credit card number--without your permission by another person to commit fraudulent or criminal acts.

ID thieves take out phony loans or ring up bogus charges in your name. Some consumers have even experienced criminal convictions in their names from the criminal acts of ID thieves.

DO NOT provide personal information, such as credit card & bank account numbers or Social Security Numbers unless you have verified who you are really giving this sensitive information to!
