## NOTICE OF PROJECT PLANNING PUBLIC MEETING

The City of Brown City will hold a public meeting on the proposed 2024 DWSRF Project for the purpose of receiving comments from interested persons.

The meeting will be held at 7:00 p.m. on May 22, 2023 at the City Hall, 4205 Main Street, Brown City, Michigan as part of the regularly scheduled City Council meeting.

The purpose of the proposed project is improvements to the City's water works system for public health, safety, and welfare.

The proposed project will involve replacement of undersized and aging water main, water main looping, lead service line replacements, replacement of arsenic filter media, new residential water meters and meter reading system, and any associated restoration work.

Impacts of the proposed project include improving water quality, reliability, redundancy, and overall efficiency of the water system. Short term construction related impacts include increased noise, increased dust, temporary water pressure fluctuations, and temporary water service disruptions.

The estimated cost to users for the proposed project will be approximately \$7,500,000. User rate increases will be dependent upon final engineering, potential grants and/or principal forgiveness, and final project costs.

Copies of the plan detailing the proposed project are available for inspection at the following location: City Hall, 4205 Main Street, Brown City, Michigan

Written comments received before the meeting record is closed on May 22, 2023 will receive responses in the final project planning document. Written comments should be sent to City Manager, City of Brown City, 4205 Main Street, Post Office Box 99, Brown City, MI 48416.
