

## City of Brown City Water and Sewer Committee Meeting Agenda

Meeting to be held September 19<sup>th</sup> at 6:30 P.M 2023  
Meeting Location- City Hall 4205 Main Street, Brown City

- 1- Short Term Sewer Issues
  - A- Sewer Check Valves
  
- 2- Long Term Sewer Issues-
  - A-Lack of definitive answers from prior Spicer involvement.
  - B- Alternatives to sewer check valves.

### Talking Points / Questions

- Did the School have a flooding issue prior to the new complex being built?
- Are there any other properties tied to the same system as the school which are experiencing the same backflow issue?
- Do both the High School & Elementary flood when the check valve fails?
- Is there a part of the school more susceptible to flooding than others?
- Where does the rainwater from the buildings and parking lot flow from the school?
- Replacing or leaving the check valves in place does what to the City liability?
